

FIRE INSTRUCTIONS

In the event of fire and a fire alarm, you must leave the building!

- **NOTIFY:** Everybody in the area should be alerted.
Press the manual fire alarm.
Call the fire department on tel. number 110!
- **EXTINGUISH:** Extinguish the fire if you can, use the nearest fire extinguisher.
- **LIMITING FIRE SPREAD:** On leaving the building or the place of fire, close doors and windows, but do not lock.
- **EVACUATE:** Leave via smoke-free escape routes, do not use elevators. Help people who need assistance to the nearest safe place. Move away from the building.

Follow the instructions from the staff and / or the fire department.

*The most important thing is to 'notify' and 'evacuate'.
You must assess whether you should spend time on extinguishing and
limiting the fire from spreading.*
